### Step 1

Mark a grid on your wall representing the length and height of your pattern. Be sure that it consists of horizontal lines that are XXXmm apart.

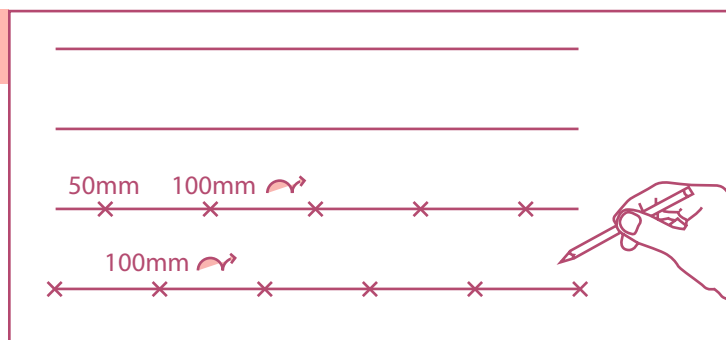

### Step 2

On the bottom line of your grid, make a mark every XXXmm along its width.

### Step 3

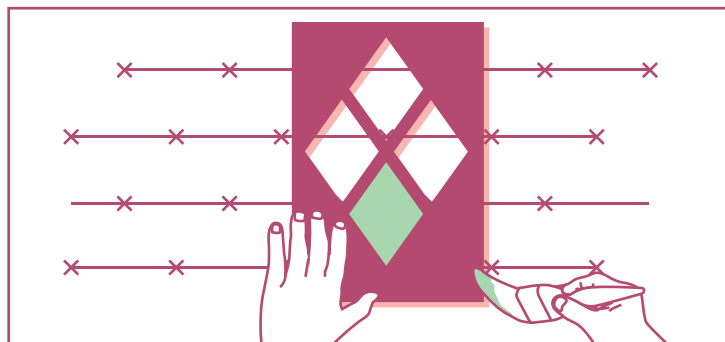

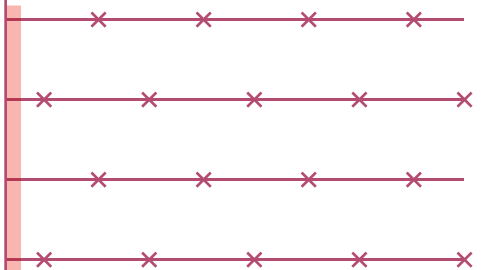

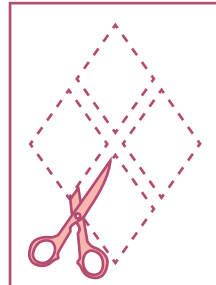

On the next line up, make a mark at XXXmm from the right and then continue marking from there every XXXmm.

## TIPS & TECHNIQUES: Fun feature pattern

### Step 4

Repeat and alternate steps 2 and 3 on the following lines until you reach your highest point. Use our diamond template to make your own stencil.

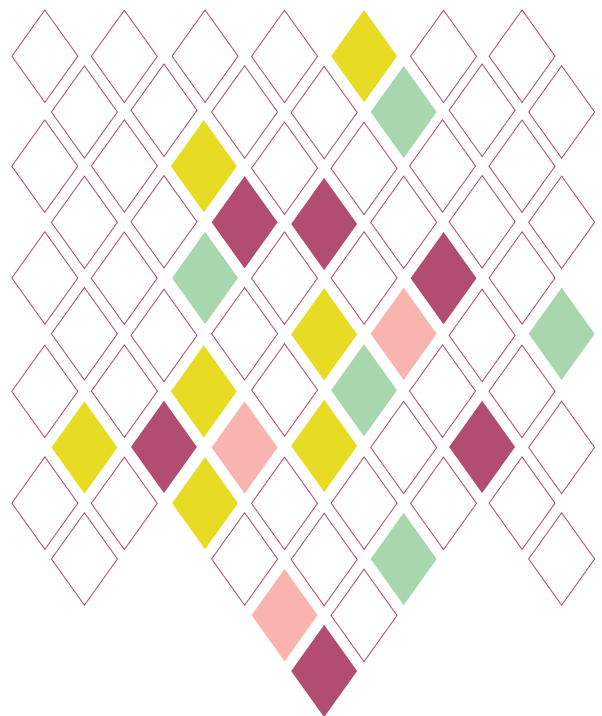

### Step 5

Select from between 3-5 Dulux Paint colours and mask each diamond or using the stencil, paint each diamond in your chosen colour, repeat coat to ensure coverage.

### Example

Here is an example of ours, be sure to leave some diamonds blank.
